THE UNION DOCK COMPANY OF HONG-KONG AND WHAMPOA, LIMITED.

THE Company call the attention of Ship Owners, Consignees, and Masters of Vessels to their offices in the Victoria and Whampoa for the DOCKING and REPAIRS of Vessel of all classes.

At Hongkong the Company have the only Dock in the Harbour—a grand Dock, solidly built of stone, 1,000 feet long, and 300 feet in length, and dredging 22 feet of water.

Attached to it are shipwrights, Blacksmiths, Boiler-makers, and Machinery works, built of stone, 1,000 feet long, and 300 feet in length, and dredging 22 feet of water.

The Company have also opened a Slip Yard by the side of the Hongkong Dock, and are ready to receive tenders for the construction of a small vessel, 100 tons burthen.

At Whampoa the Company will take Ships at reduced rates.

The Steam Tug Little Orphan can be engaged to assist Vessels to or from her, at reasonable rates.

For Particulars apply to R. S. WALKER,

Secretary,
Company's Office, Queen's Road,
Corner of Ice House Lane,
of 649 Hongkong, 8th April, 1869.

PORT OF AMOY.

SUITORS, AGENTS, and COMMERCIAL men are informed that the Dock Company's Head Office, above Port afford every facility, at moderate charges, for

REPAIRING and SPARING VESSELS,
CLEANING and PAINTING IRON SHIPS and STEAMERS.

THEIR LARGE SHANTY DOCK, 160 feet long, on the site of the average spring tides can receive Vessels of 16-17 feet draught. It has a

CARSON GATE and POWERFUL CRANE

And an Engineers' workshop fitted with Lathes and Tools, driven by steam. Iron and Brass founders, Boiler-makers' shop, a large Smithy and Carpenters' and Boat-builders' sheds. All experienced by resident Europeans.

Their two smaller GRANITE DOCKS receive, at spring tides, Vessels drawing 12 feet, Spars, Timber, and other Dock-yard material kept in stock.

Quarters for Officers, and a DRY GODOWN for STORES, of Vessels under repair.

THE CALIFORNIA DRY DOCK COMPANY, SAN FRANCISCO, CALIFORNIA U. S.

NOTICE TO SHIP OWNERS, AGENTS, CONSIGNERS, AND MASTERS.

THE Company's DRY DOCKS situated at San Francisco, California, are now completed, and in use, and are available and afford every facility for the docking and repairing of all classes of Steam and Sailing Vessels.

THE GRAVING DOCK.

Exclusively designed and constructed in the most substantial manner, is of the following dimensions—Extreme length 450 feet, length of dock 400 feet, draught 30 feet; at mean high tide will take in a ship drawing 24 feet, without lighting.

This DOCK is fitted with a Caisson Gate, and a powerful centrifugal Steam Pump, capable of pumping out the Dock in two hours.

THE FLOATING DRY DOCK.

We require Vessels of 1,500 tons measurement or under, to be taken in dry dock, and have the effect of calling prominent attention to the nature of affairs in this country, and of inducing Lord Clarendon to declare distinctly, that the friendly power which England is willing to adopt can only be maintained by China, on her side, taking care that the stipulations of the Treaty are duly carried out. The policy of occupying China as a nation, and referring to the Central Government, is again emanating.

THE CHINA MISSION are to an extent satisfactory, while it has induced the British Government to adopt a considerate—perhaps a temporarily conciliatory—policy towards China, it has had the effect of calling prominent attention to the nature of affairs in this country, and of inducing Lord Clarendon to declare distinctly, that the friendly power which England is willing to adopt can only be maintained by China, on her side, taking care that the stipulations of the Treaty are duly carried out.

Extracts.

The Life of Women.

We wish to call the attention of our readers to this we could perceive them more effectually than by calling for themselves what is actually the life of a woman. Not as an appeal for compassion, it is very much to be questioned whether the better sort of women do not lead a more miserable life than most men. "Happiness," says Edwy, "is to be found no less with a purring cat than with the playful kitten." Women are indeed hardy with their numerous great difficulties above the level of actual suffering. There are glories of the nursery and ambition of the kitchen which cannot be less than the glories of the nursery and ambition of the baffle-field. To the majority of men, the life of a woman, with its various household cares, is a small world of consolation, and its various difficulties a small field in comparison to the world of disasters. Yet there is no woman who would shrink from the level of actual suffering. There are glories of the nursery and ambition of the kitchen which cannot be less than the glories of the nursery and ambition of the baffle-field.

At the foot of the Devil's Forest and its vicinity.

The Devil's Forest is a mass of interminable trees, the bark of which is black, and the wood white, resembling a pitch. This rock is called "The Devil's Rock." The following legend is attached to it:

At the period when the curious disciples of Apollo came to teach the gospel in the hills, the Devil, who was then a very ugly fellow, was sent to intercept them, and to prevent them from reaching the foot of Mount Olympus, where he intended to attack them. He set the stately flames which accompanied the sons of Apollo, and the lightning which followed them, in full career, so that the whole mountain was enveloped in smoke and fire. The sons of Apollo, however, were not to be daunted by such a scene, and, with a child pleased with his dull house, that men usually regard as the home of the Devil, to them in the world of the Devil, they continued their course, and reached the gates of Olympus, where they were received by the gods.

Any way I believe they would have got through, had not the Devil, who was then a little patrician of man's pleasure, and had not made moreover than nature herself, drawn them by the hand of their physical constitutions and their sensuous attractions,

and so led them into the depths of the underworld.
